

“(C) Compare various feasible financial and organizational approaches for such a transfer. Criteria for the comparison should include considerations such as: maintenance of data continuity; maintenance of United States leadership; national security; international obligations; potential for market growth; marketing ability; sunk and projected cost to the Government; independence of subsidy or financial guarantee from the Government; potential of financial return to the Government; and price of data to users. The following institutional alternatives should be compared: (i) wholly private ownership and operation of the system by an entity competitively selected; (ii) phased-in Government/private ownership and operation; (iii) a legislatively chartered privately owned corporation; and (iv) continued ownership and operation by the Federal Government.

The Secretary shall complete these studies and report on them to the Congress by February 1, 1983.

“(2) In addition to the studies and comparisons called for in section 201(b)(1) the Secretary shall fund at least two parallel studies outside the government independently to assess the alternatives called for in section 201(b)(1)(C). These studies should be submitted to the Congress by April 1, 1983.

“(c) There is authorized to be appropriated \$14,955,000 for the fiscal year 1983, for the purpose of carrying out the provisions of this title [this note].

“(d) No moneys authorized by this title [this note] shall be used to transfer to the private sector the ownership or management of any civil land remote sensing space satellite system and associated ground system equipment unless (A) a period of thirty days has passed after the receipt by the Speaker of the House of Representatives, the President of the Senate, the House Committee on Science, Space, and Technology [now Committee on Science], and the Senate Committee on Commerce, Science, and Transportation, of a message from the Secretary of Commerce or his designee containing a full and complete plan for the action proposed to be taken together with the reasons therefor and expected funding impacts, or (B) each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.”
