§ 2103a. Forest Stewardship Program

(a) Establishment

The Secretary, in consultation with State foresters or equivalent State officials, shall establish a Forest Stewardship Program (hereafter referred to in this section as the “Program”) to encourage the long-term stewardship of non-industrial private forest lands by assisting owners of such lands to more actively manage their forest and related resources by utilizing existing State, Federal, and private sector resource management expertise and assistance programs.

(b) Goal

The goal of the Program shall be to enter at least 25,000,000 acres of nonindustrial private forest lands in the Program by December 31, 1995.

(c) “Nonindustrial private forest lands” defined

For the purposes of this section, the term “nonindustrial private forest lands” means rural, as determined by the Secretary, lands with existing tree cover, or suitable for growing trees, and owned by any private individual, group, association, corporation, Indian tribe, or other private legal entity.

(d) Implementation

In carrying out the Program the Secretary, in consultation with State foresters or equivalent State officials, shall provide financial, technical, educational, and related assistance to State foresters or equivalent State officials, including assistance to help such State foresters or equivalent officials to provide financial assistance to other State and local natural resource entities, both public and private, and land-grant universities for the delivery of information and professional assistance to owners of nonindustrial private forest lands. Such information and assistance shall be directed to help such owners understand and evaluate alternative actions they might take, including—

(1) managing and enhancing the productivity of timber, fish and wildlife habitat, water quality, wetlands, recreational resources, and the aesthetic value of forest lands;

(2) investing in practices to protect, maintain, and enhance the resources identified in paragraph (1);

(3) ensuring that afforestation, reforestation, improvement of poorly stocked stands, timber stand improvement, practices necessary to improve seedling growth and survival, and growth enhancement practices occur where needed to enhance and sustain the long-term productivity of timber and nontimber forest resources to help meet future public demand for all forest resources and provide the environmental benefits that result; and

(4) protecting their forests from damage caused by fire, insects, disease, and damaging weather.

(e) Eligibility

All nonindustrial private forest lands that are not in management under Federal, State, or private sector financial and technical assistance programs existing on November 28, 1990, are eligible for assistance under the Program. Non-industrial private forest lands that are managed under such existing programs are eligible for assistance under the Program if forest management activities are expanded and enhanced and the landowner agrees to meet the requirements of this chapter.

(f) Duties of owners

To enter forest land into the Program, landowners shall—

(1) prepare and submit to the State forester or equivalent State official a forest stewardship plan that meets the requirements of this section and that—

(A) is prepared by a professional resource manager;

(B) identifies and describes actions to be taken by the landowner to protect soil, water, range, aesthetic quality, recreation, timber, water, and fish and wildlife resources on such land in a manner that is compatible with the objectives of the landowner; and

(C) is approved by the State forester, or equivalent State official; and

(2) agree that all activities conducted on such land shall be consistent with the stewardship plan.

(g) Stewardship recognition

The Secretary, in consultation with State foresters or equivalent State officials, is encouraged to develop an appropriate recognition program for landowners who practice stewardship management on their lands, with an appropriate, special recognition symbol and title.

(h) Authorization of appropriations

There are hereby authorized to be appropriated \$25,000,000 for each of the fiscal years 1991 through 1995, and such sums as may be necessary thereafter, to carry out this section.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2106b of this title.

§ 2103c. Forest Legacy Program**(a) Establishment and purpose**

The Secretary shall establish a program, to be known as the Forest Legacy Program, in cooperation with appropriate State, regional, and other units of government for the purposes of ascertaining and protecting environmentally important forest areas that are threatened by conversion to nonforest uses and, through the use of conservation easements and other mechanisms, for promoting forest land protection and other conservation opportunities. Such purposes shall also include the protection of important scenic, cultural, fish, wildlife, and recreational resources, riparian areas, and other ecological values.

(b) State and regional forest legacy programs

The Secretary shall exercise the authority under subsection (a) of this section in conjunction with State or regional programs that the Secretary deems consistent with this section.

(c) Interests in land

In addition to the authorities granted under section 515 of this title and section 428a(a) of title 7, the Secretary may acquire from willing landowners lands and interests therein, including conservation easements and rights of public access, for Forest Legacy Program purposes. The Secretary shall not acquire conservation easements with title held in common ownership with any other entity.

(d) Implementation**(1) In general**

Lands and interests therein acquired under subsection (c) of this section may be held in perpetuity for program and easement administration purposes as the Secretary may provide. In administering lands and interests therein under the program, the Secretary shall identify the environmental values to be protected by entry of the lands into the program, management activities which are planned and the manner in which they may affect the values identified, and obtain from the landowner other information determined appropriate for administration and management purposes.

(2) Initial programs

Not later than November 28, 1991, the Secretary shall establish a regional program in furtherance of the Northern Forest Lands

Study in the States of New York, New Hampshire, Vermont, and Maine under Public Law 100-446. The Secretary shall establish additional programs in each of the Northeast, Midwest, South, and Western regions of the United States, and the Pacific Northwest (including the State of Washington), on the preparation of an assessment of the need for such programs.

(e) Eligibility

Not later than November 28, 1991, and in consultation with State Forest Stewardship Coordinating Committees established under section 2113(b) of this title and similar regional organizations, the Secretary shall establish eligibility criteria for the designation of forest areas from which lands may be entered into the Forest Legacy Program and subsequently select such appropriate areas. To be eligible, such areas shall have significant environmental values or shall be threatened by present or future conversion to nonforest uses. Of land proposed to be included in the Forest Legacy Program, the Secretary shall give priority to lands which can be effectively protected and managed, and which have important scenic or recreational values; riparian areas; fish and wildlife values, including threatened and endangered species; or other ecological values.

(f) Application

For areas included in the Forest Legacy Program, an owner of lands or interests in lands who wishes to participate may prepare and submit an application at such time in such form and containing such information as the Secretary may prescribe. The Secretary shall give reasonable advance notice for the submission of all applications to the State forester, equivalent State official, or other appropriate State or regional natural resource management agency. If applications exceed the ability of the Secretary to fund them, priority shall be given to those forest areas having the greatest need for protection pursuant to the criteria described in subsection (e) of this section.

(g) State consent

Where a State has not approved the acquisition of land under section 515 of this title, the Secretary shall not acquire lands or interests therein under authority granted by this section outside an area of that State designated as a part of a program established under subsection (b) of this section.

(h) Forest management activities**(1) In general**

Conservation easements or deed reservations acquired or reserved pursuant to this section may allow forest management activities, including timber management, on areas entered in the Forest Legacy Program insofar as the Secretary deems such activities consistent with the purposes of this section.

(2) Assignment of responsibilities

For Forest Legacy Program areas, the Secretary may delegate or assign management and enforcement responsibilities over federally owned lands and interests in lands only to another governmental entity.
