(6) accurate and comprehensive information on international investment is needed by the Congress to develop an informed United States policy on such investment;

(7) United States service industries engaged in interstate and foreign commerce account for a substantial part of the labor force and gross national product of the United States economy, and such commerce is rapidly increasing;

(8) international trade and services is an important issue for international negotiations and deserves priority in the attention of governments, international agencies, negotiators, and the private sector; and
