

retary shall notify the State. Such notice shall specify those aspects of the administration or enforcement of the State program that are determined to be inadequate. The State shall have ninety days after receipt of the notice to correct any deficiencies. If after that time the Secretary determines that the State program remains inadequate, the Secretary may terminate, in whole or in part, the State's primary enforcement responsibility under this chapter.

(c) Request of State official

(1) In general

On request of the Governor or other appropriate official of a State, the Secretary may terminate, effective as soon as the Secretary determines is practicable, the primary enforcement responsibility of a State under subsection (a) of this section. In terminating the primary enforcement responsibility under this subsection, the Secretary shall work with the appropriate State official to determine the level of support to be provided to the Secretary by the State under this chapter.

(2) Reassumption

Nothing in this subsection shall prevent a State from reassuming primary enforcement responsibility if the Secretary determines that the State meets the requirements of subsection (a) of this section.

(d) Emergency conditions

Nothing in this section shall limit the authority of the Secretary to enforce this chapter whenever the Secretary determines that emergency conditions exist that require immediate action on the part of the Secretary and the State authority is unwilling or unable adequately to respond to the emergency.

CHAPTER 70—ANIMAL CANCER RESEARCH

Sec.

- 3901. Congressional findings.
- 3902. Research program on cancer in animals and birds.
- 3903. Annual program review to achieve coordination with National Cancer Institute program.
- 3904. Authorization of appropriations; restriction.

§ 3901. Congressional findings

Congress finds that—

(a) basic research on malignant tumors or cancers is essential to protect the health of domestic animals, poultry, and wildlife, including birds;

(b) carcinogenic agents have not been adequately identified in domestic animals, poultry, and wildlife management;

(c) basic research in diagnosis, prevention, and control of malignant tumors in animals and birds has not been adequately coordinated;

(d) significant theories of a common factor in malignant tumors, such as chorionic gonadotropin, have not been pursued in depth;

(e) research on diagnosis, prevention, and control of cancer in animals and birds will be beneficial in identifying any common factors in human and animal malignant tumors, if such exist; and

(f) it is imperative for the Department of Agriculture and the National Institutes of Health to coordinate and consult with regard to the research authorized under this chapter to achieve the maximum benefits from such research.
