SHORT TITLE

Section 2001 of title II of Pub. L. 100-478 provided that: “This title [enacting this chapter and amending section 1538 of this title] may be cited as the ‘African Elephant Conservation Act’.”

§ 4202. Findings

The Congress finds the following:

(1) Elephant populations in Africa have declined at an alarming rate since the mid-1970’s.

(2) The large illegal trade in African elephant ivory is the major cause of this decline and threatens the continued existence of the African elephant.

(3) The African elephant is listed as threatened under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) and its continued existence will be further jeopardized if this decline is not reversed.

(4) Because African elephant ivory is indistinguishable from Asian elephant ivory, there is a need to ensure that the trade in African elephant ivory does not further endanger the Asian elephant, which is listed as endangered under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533) and under Appendix I of CITES.

(5) In response to the significant illegal trade in African elephant ivory, the parties to CITES established the CITES Ivory Control System to curtail the illegal trade and to encourage African countries to manage, conserve, and protect their African elephant populations.

(6) The CITES Ivory Control System entered into force recently and should be allowed to continue in force for a reasonable period of time to assess its effectiveness in curtailing the illegal trade in African elephant ivory.
