REFERENCES IN TEXT

This chapter, referred to in text, was in the original “this joint resolution”, which enacted this chapter and section 308 of the Public Health Service Act (act July 1, 1944, ch. 373, 58 Stat. 682). Such section 308 was redesignated section 307 by Pub. L. 93-353, July 23, 1974, title I, § 106, 88 Stat. 367, and is classified to section 2421 of Title 42, The Public Health and Welfare.

RECITAL

Pub. L. 86-610 provided that:

“Whereas it is recognized that disease and disability are the common enemies of all nations and peoples, and that the means, methods, and techniques for combating and abating the ravages of disease and disability and for improving the health and health standards of man should be sought and shared, without regard to national boundaries and divisions; and

“Whereas advances in combating and abating disease and in the positive promotion of human health can be stimulated by supporting and encouraging cooperation among scientists, research workers, and teachers on an international basis, with consequent benefit to the health of our people and of all peoples; and

“Whereas there already exist tested means for international cooperation in matters relating to health, including the World Health Organization, the Pan American Health Organization, and the United Nations Chil-

dren's Fund (UNICEF), with which the United States is identified and associated, and it is highly desirable that the United States establish domestic machinery for the maximum mobilization of its health research resources, the more efficiently to cooperate with and support the research, research-training and research-planning endeavors of such international organizations: Therefore be it * * *".

SHORT TITLE

Section 1 of Pub. L. 86-610 provided that: "This joint resolution [enacting this chapter and section 242 of Title 42, The Public Health and Welfare] may be cited as the 'International Health Research Act of 1960'."

SWINE INFLUENZA STUDY

Pub. L. 94-302, title III, § 301, May 31, 1976, 90 Stat. 596, provided that:

"(a) The Congress finds and declares that—

"(1) the problems posed by swine influenza transcend national and political boundaries;

"(2) no one country, or even one portion of the world, can singularly undertake the search for a worldwide solution to the problems posed by swine influenza;

"(3) the global nature of swine influenza demands international cooperation and coordination in the investigation and planning for effective control of swine influenza;

"(4) the Public Health Service of the United States has invited the World Health Organization of the United Nations and its International Influenza Reference Centers to participate in the investigation and planning for the control of swine influenza;

"(5) special collaboration has already been established among the United States, the United Kingdom, and Canada for mutual participation in the investigation and planning for the control of swine influenza;

"(6) the United States Department of State and the Public Health Service of the United States have joint programs to provide information to foreign countries on the nature and extent of swine influenza and the methods necessary to control it; and

"(7) the technology of the United States for the surveillance of virus disease and vaccine production should be made available to foreign countries.

"(b) It is the sense of the Congress that the President should furnish assistance to foreign countries and international organizations for the investigation and planning for the control of swine influenza."

EX. ORD. NO. 13193. FEDERAL LEADERSHIP ON GLOBAL TOBACCO CONTROL AND PREVENTION

Ex. Ord. No. 13193, Jan. 18, 2001, 66 F.R. 7387, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. Policy. It shall be the policy of the executive branch to take strong action to address the potential global epidemic of diseases caused by tobacco use. The executive branch shall undertake activities to increase its capacity to address global tobacco prevention and control issues through coordinated domestic action, limited bilateral assistance to individual nations, and support to multilateral organizations. International activities shall be directed towards deterring children from tobacco use, protecting nonsmokers, and providing information about the adverse health effects of tobacco use and the health benefits of cessation.

SEC. 2. Responsibilities of Federal Departments and Agencies. (a) Tobacco Trade Policy. In the implementation of international trade policy, executive departments and agencies shall not promote the sale or export of tobacco or tobacco products, or seek the reduction or removal of foreign government restrictions on the marketing and advertising of such products, provided that such restrictions are applied equally to all tobacco or tobacco products of the same type. Departments and agencies are not precluded from taking nec-

essary actions in accordance with the requirements and remedies available under applicable United States trade laws and international agreements to ensure non-discriminatory treatment of United States products. Nothing in this Executive Order shall be construed (1) to modify the annual executive branch guidance to United States diplomatic posts on health, trade, and commercial aspects of tobacco, or (2) to affect any negotiating position of the United States on the Framework Convention on Tobacco Control.

(b) The Department of Health and Human Services' (HHS) Role in Tobacco Trade Policy Deliberations. The HHS shall be included in all deliberations of inter-agency working groups, chaired by the United States Trade Representative (USTR), that address issues relating to trade in tobacco and tobacco products. Through such participation, HHS shall advise the USTR, and other interested Federal agencies, of the potential public health impact of any tobacco-related trade action that is under consideration. Upon conclusion of a trade agreement that includes provisions specifically addressing tobacco or tobacco products, the USTR shall produce and make publicly available a summary describing those provisions.

(c) International Tobacco Control Needs Assessment. The HHS, with the cooperation of the Departments of State, Commerce, and Agriculture, and in consultation with the appropriate national Ministry of Health, shall conduct a pilot assessment of tobacco use in a country other than the United States. Such assessment will be carried out through a compilation and review of surveys and other needs assessments already available and include:

(1) initial estimates of the burden of disease and other public health consequences of tobacco use;

(2) the status of tobacco control regulatory measures in place to curtail tobacco consumption and tobacco related disease; and

(3) an analysis of the marketing, distribution, and manufacturing practices of tobacco companies in given regions, and the impact of those practices on smoking rates, particularly among women and children. Such assessment shall be prepared and provided to interested agencies and other parties not later than December 31, 2001, and be updated as practicable.

(d) Research and Training in Tobacco Control. The HHS will develop a research and training program linking institutions in the United States and certain other countries in the field of tobacco control. Emphasis will be placed on the collection of standardized and comparable surveillance data; networks for communication, information and best practices; and the development and evaluation of culturally-targeted approaches to preventing tobacco use and increasing quit rates, especially among women and children.

SEC. 3. General. (a) Executive departments and agencies shall carry out the provisions of this order to the extent permitted by law and consistent with their statutory and regulatory authorities and their enforcement mechanisms.

(b) This order clarifies and strengthens Administration policy and does not create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its officers or employees, or any other person.

WILLIAM J. CLINTON.
