(c) develop agreements with the Administrator of the FAA and users of the products, services, and capabilities it will provide;

(d) operate in accordance with safety performance standards developed by the FAA and rapidly respond to FAA safety and security oversight findings;

(e) consult with its customers, the traveling public, including direct users such as airlines, cargo carriers, manufacturers, airports, general aviation, and commercial space transportation providers, and focus on producing results that satisfy the FAA's external customer needs;

(f) consult with appropriate Federal, State, and local public agencies, including the Department of Defense and the National Aeronautics and Space Administration, to determine the best practices for meeting the diverse needs throughout the National Airspace System;

(g) establish strong incentives to managers for achieving results; and

(h) formulate and recommend to the Administrator any management, fiscal, or legislative changes necessary for the organization to achieve its performance goals.

SEC. 3. Aviation Management Advisory Committee. The Air Traffic Control Subcommittee of the Aviation Management Advisory Committee shall provide, consistent with its responsibilities under Air-21, general oversight to ATO regarding the administration, management, conduct, direction, and supervision of the air traffic control system.

SEC. 4. Evaluation and Report. Not later than 5 years after the date of this order, the Aviation Management Advisory Committee shall provide to the Secretary and the Administrator a report on the operation and effectiveness of the ATO, together with any recommendations for management, fiscal, or legislative changes to enable the organization to achieve its goals.
